

Prerequisites for Publication

Authorship: The Editors of *Surgery Today* subscribe to recommendations formulated by the International Committee of Medical Journal Editors [<http://www.icmje.org>] regarding criteria for authorship.

Accordingly, each person listed as an author or coauthor for a submitted report (does not include Review Articles) must meet *all three* criteria. An author or coauthor shall have:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and shared in their revisions;
3. Approved the final version.

Meeting these criteria should provide each author with sufficient knowledge of and participation in the work that he or she can accept public responsibility for the report.

Certification: This Certification Form should be signed and submitted with the manuscript. The senior or corresponding author is requested to certify that all listed authors qualify for authorship according to the above three criteria. The author(s) should also certify that: no part of the work described has been published before [except in the form of an abstract or as part of a published lecture, review, thesis, or dissertation (appropriately cited)]; that the work is not under consideration for publication elsewhere; that if and when the manuscript is accepted for publication, the author(s) agree to automatic transfer of the copyright to the publisher; and that the manuscript, or its parts, will not be published elsewhere subsequently in any language without the consent of the copyright holders.

Guidelines for Animal and Human Research: For experimental animals, specify the species, strain number used, and other pertinent descriptive characteristics. When describing surgical procedures on animals, identify the preanesthetic and anesthetic agents used, and state the amount or concentration and the route and frequency of administration for each. It is essential that human research adhere to the Declaration of Helsinki.

Certification Form – to be submitted with manuscript to *Surgery Today*

Article type: (Please check a box to indicate your article type)

- Review Article, Original Article (Experimental Original, Clinical Original), Case Report,
 Short Communication, How to Do It, Letter to the Editor

Manuscript title:

Authors' names:
(Full name in print)

I (We) hereby certify that the authors of the above manuscripts have all:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and shared in their revisions;
3. Approved the final version.

Further, I (we) certify that:

1. This work has neither been published in whole or in part elsewhere nor is under consideration elsewhere; and
2. Humane procedures have been utilized in the treatment of experimental animals.
